

Thessaloníki's
Street Art

- 
- Thessaloniki has got a lot of graffiti and here are some of them.
 - They are very impressive and colourful.
 - Furthermore, numerous tourists visit Thessaloniki every year and admire these wonderful graffiti.

- I feel like travelling in space, like being part of a computer game, like being a future creature.
- I feel that we are responsible for the future of Earth. Let's take care of the environment and think of living in a green world.
