

**To: International Office and Alumni Office
Aristotle University of Thessaloniki**

Invitation for Institutional Partnership with Euroweek Foundation Poland

Dear Ma'am/ Sir:

Greetings!

The Euroweek Foundation is writing your institution for possible partnership and collaboration in hosting your interested students and alumnae **to be part of our internship, voluntary and leadership program in Poland.**

Euroweek Foundation is a well-known organization providing an informal educational program to our students and partner schools in Poland.

Since 1994, the program continues to enhance the communication skills of our participants while introducing them to the different cultures and traditions of the volunteers/interns leading the activities. *The interns/volunteer-leaders are in charge of facilitating different activities and cultural presentation to our Polish participants.*

The Euroweek activities are comprised of teambuilding and leadership activities, cross-cultural understanding, life skills workshops, and creativity and innovation. We are hosting over 1000 students around Poland every week from primary to adult learner. The facilitators of the activities are the volunteers who are coming from different countries with diverse educational background and professions. Since we started we were able to host over 1000 volunteers across the world. We are currently expanding and holding 3 offices in Azerbaijan, Turkey and Indonesia.

I am attaching herewith the frequently asked questions, and call for applicants' information to give you more information about the program.

We would also like to ask the possibility of having an online meeting to discuss more information about hosting your university and masters' students or if necessary hold an online meeting to discuss the details.

Thank you so much.

Lisette Dela Cruz
Program Manager
